

THE MONEY
IS ON FILE.
THE AI POLICY
IS NOT.

REPORTS MADE PUBLIC THE WEEK OF JULY 20 2026

Six people at one AI company, about a fifth of the biggest haul in the field.

THIS DECK RUNS ON A MODEL BUILT BY ANTHROPIC. FULL DISCLOSURE, SLIDE 09.

The majority came from Lower 48 donors, per Anchorage Daily News. No in state split is disclosed, so none is drawn.

WHAT HE SAYS HE WOULD DO

"I worry the AI industry has downplayed the risks posed to the public."

JONATHAN KREISS-TOMKINS

CANDIDATE SURVEY, NORTHERN JOURNAL, JUNE 2026.
BACKGROUND, OUTSIDE THE 10 DAY WINDOW.

THE RECORD STOPS HERE

On data centers he told the Anchorage Daily News that until Alaska has "a process and a policy we don't right now", nothing should happen.

THE SAME RECORD, THE SAME DEPTH

"Most of our national donors, I think, actually, their only agenda is, 'can you win?'"

KREISS-TOMKINS TO THE ANCHORAGE DAILY NEWS, JULY 2026

NO WRONGDOING IS ALLEGED IN THIS REPORTING

Heilala reported nearly 1.6 million dollars, more than 1.4 million of it his own, which is more than all six Anthropic employees gave.

About 4,700 acres at three Alaska bases, offered for AI data centers.

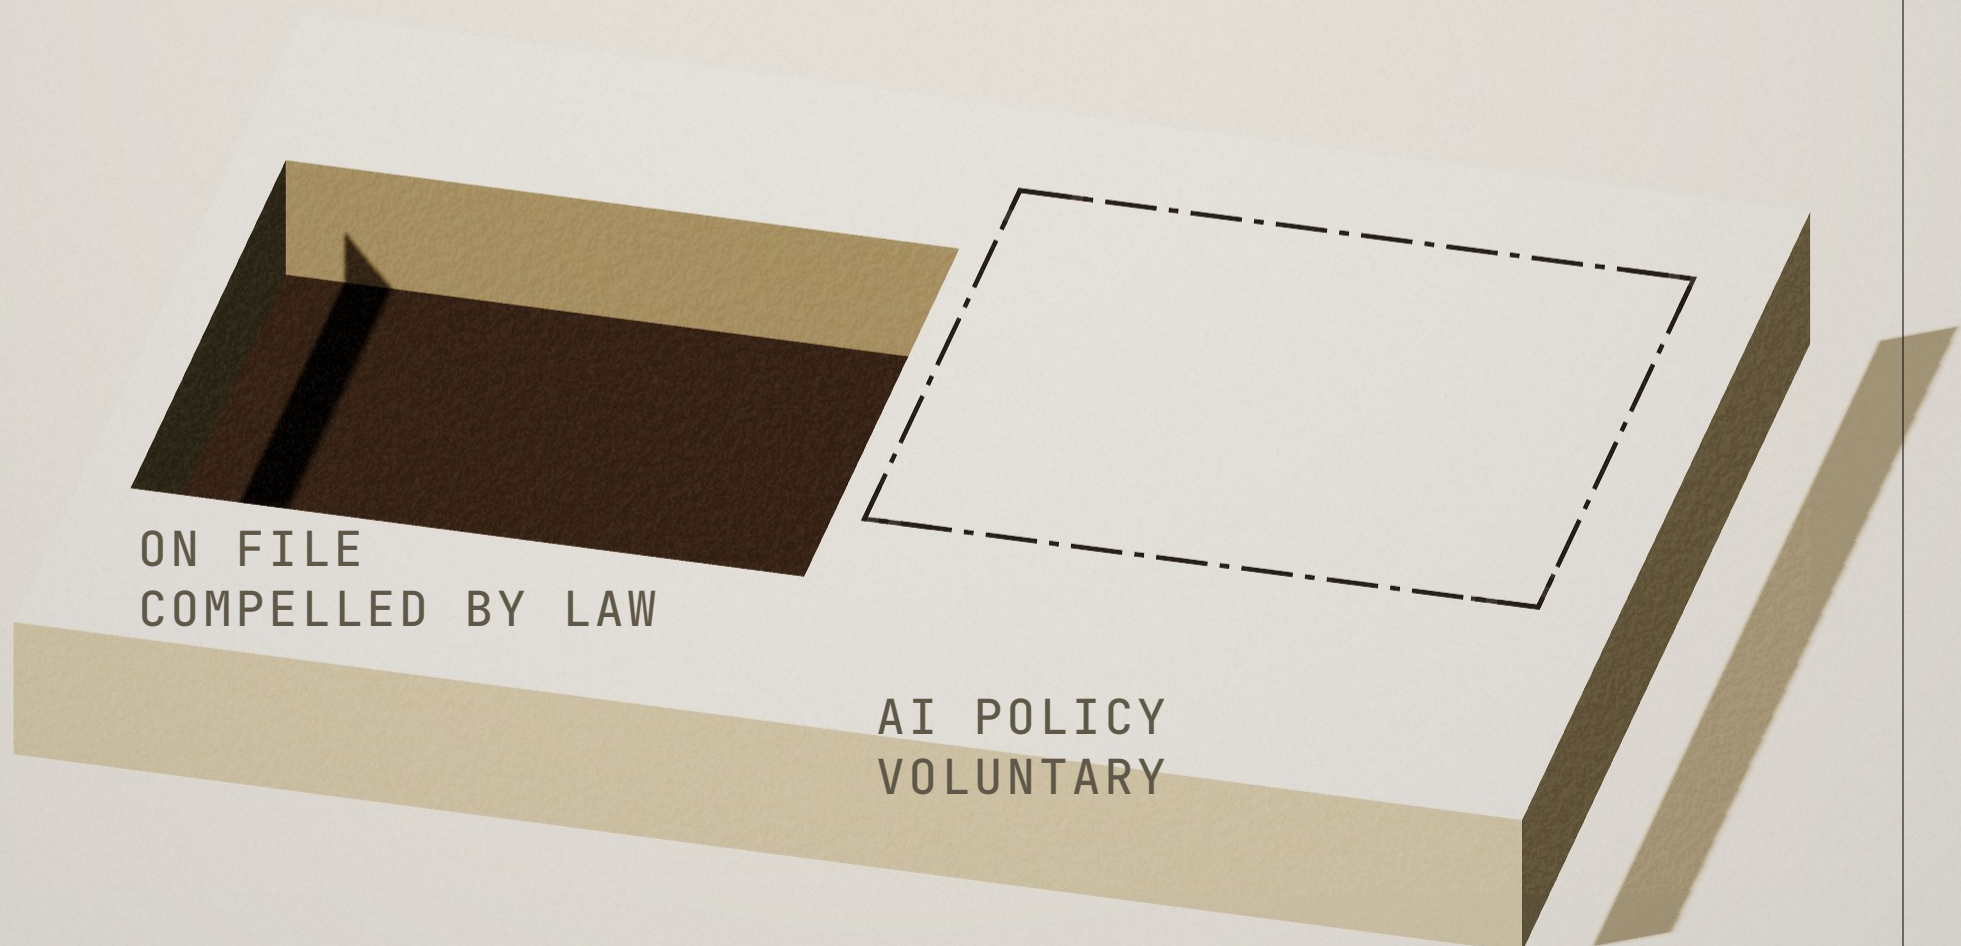

BACKGROUND, FEDERAL SOLICITATION

AUG 18 PRIMARY PER NEWS REPORTING, NOT THE DIVISION OF ELECTIONS

Offers were due June 29 2026. No award has been announced. The next governor inherits this already in motion.

Alaska requires the money on the record. It does not require the policy.

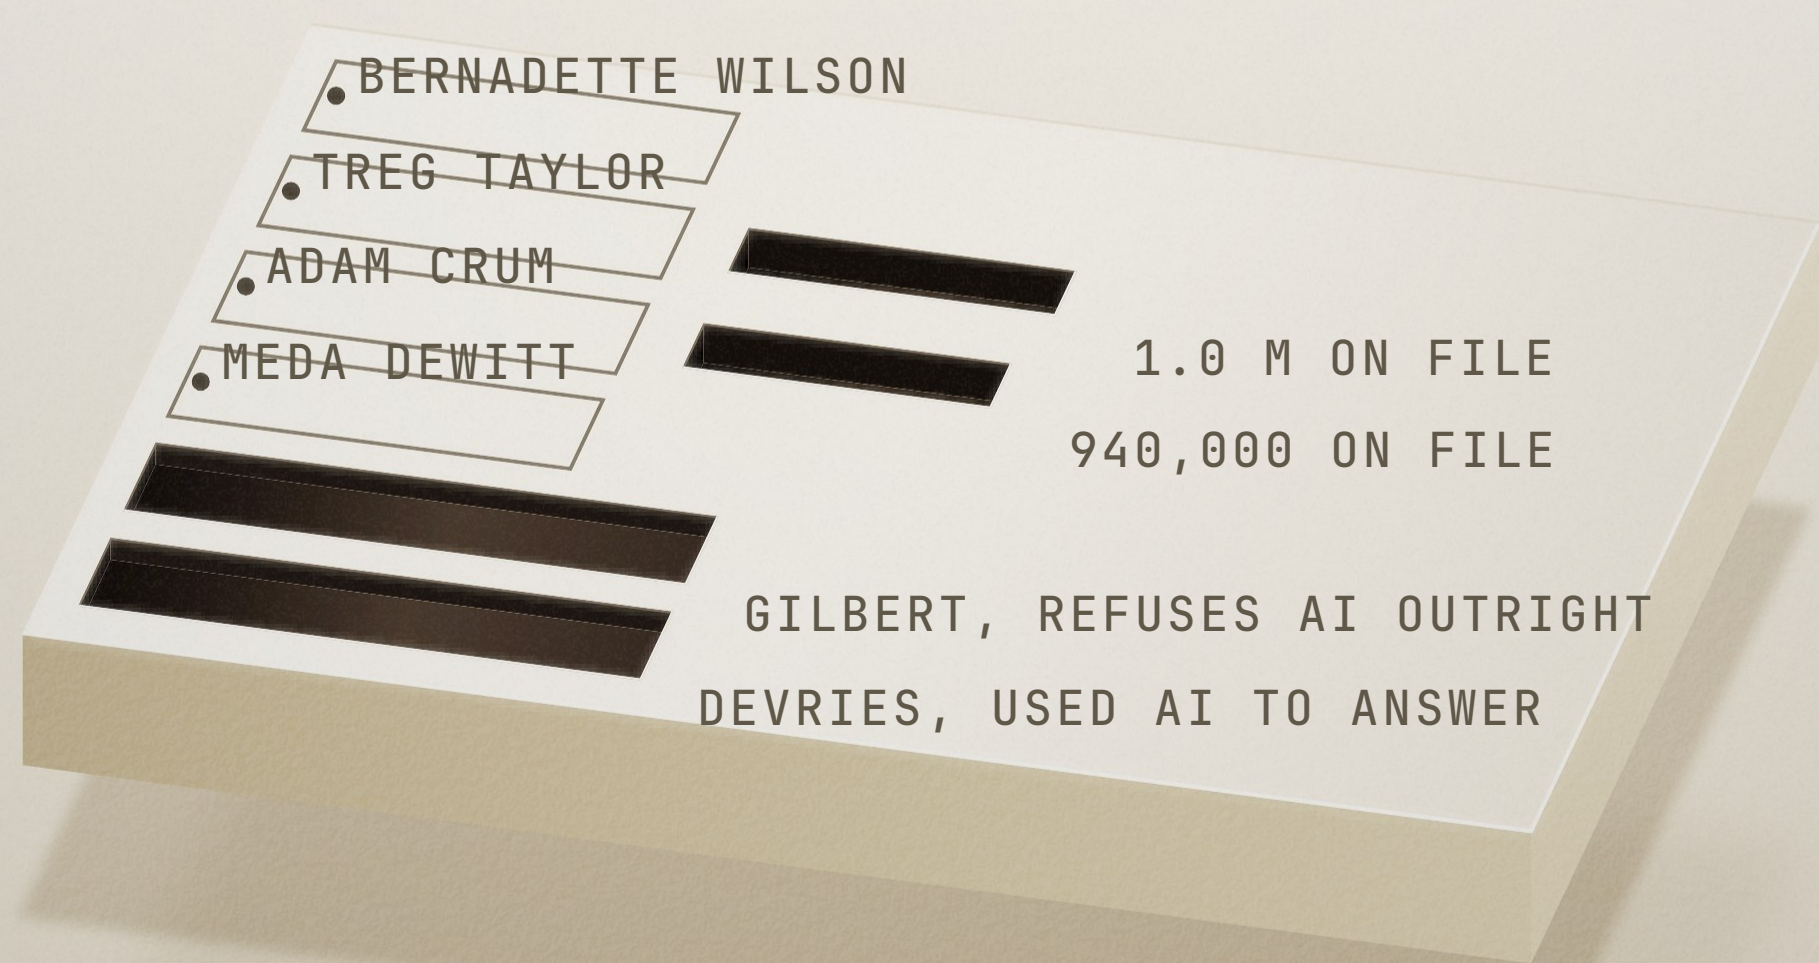

Every number in this deck exists because a law required it.
Nothing required any of the 17 candidates to state a position on AI.

Four candidates did not answer. Two raised about a million each.

NOT A COUNT OF THE FIELD. THE NAMED ANSWERS AND NON ANSWERS IN ONE JUNE 2026 SURVEY.

BACKGROUND, NORTHERN JOURNAL, JUNE 2026

Others did answer, and two of those answers are shown. Not answering a reporter is not misconduct, it is a missing answer.

Six AI rules one candidate has proposed. Six blanks for yours.

AUG 18 2026

ON THE RECORD

YOUR CANDIDATE

Liability for harms

A deepfake ban

AI disclosed in political ads

An AI fraud crackdown

Children protected from AI

A human behind state decisions

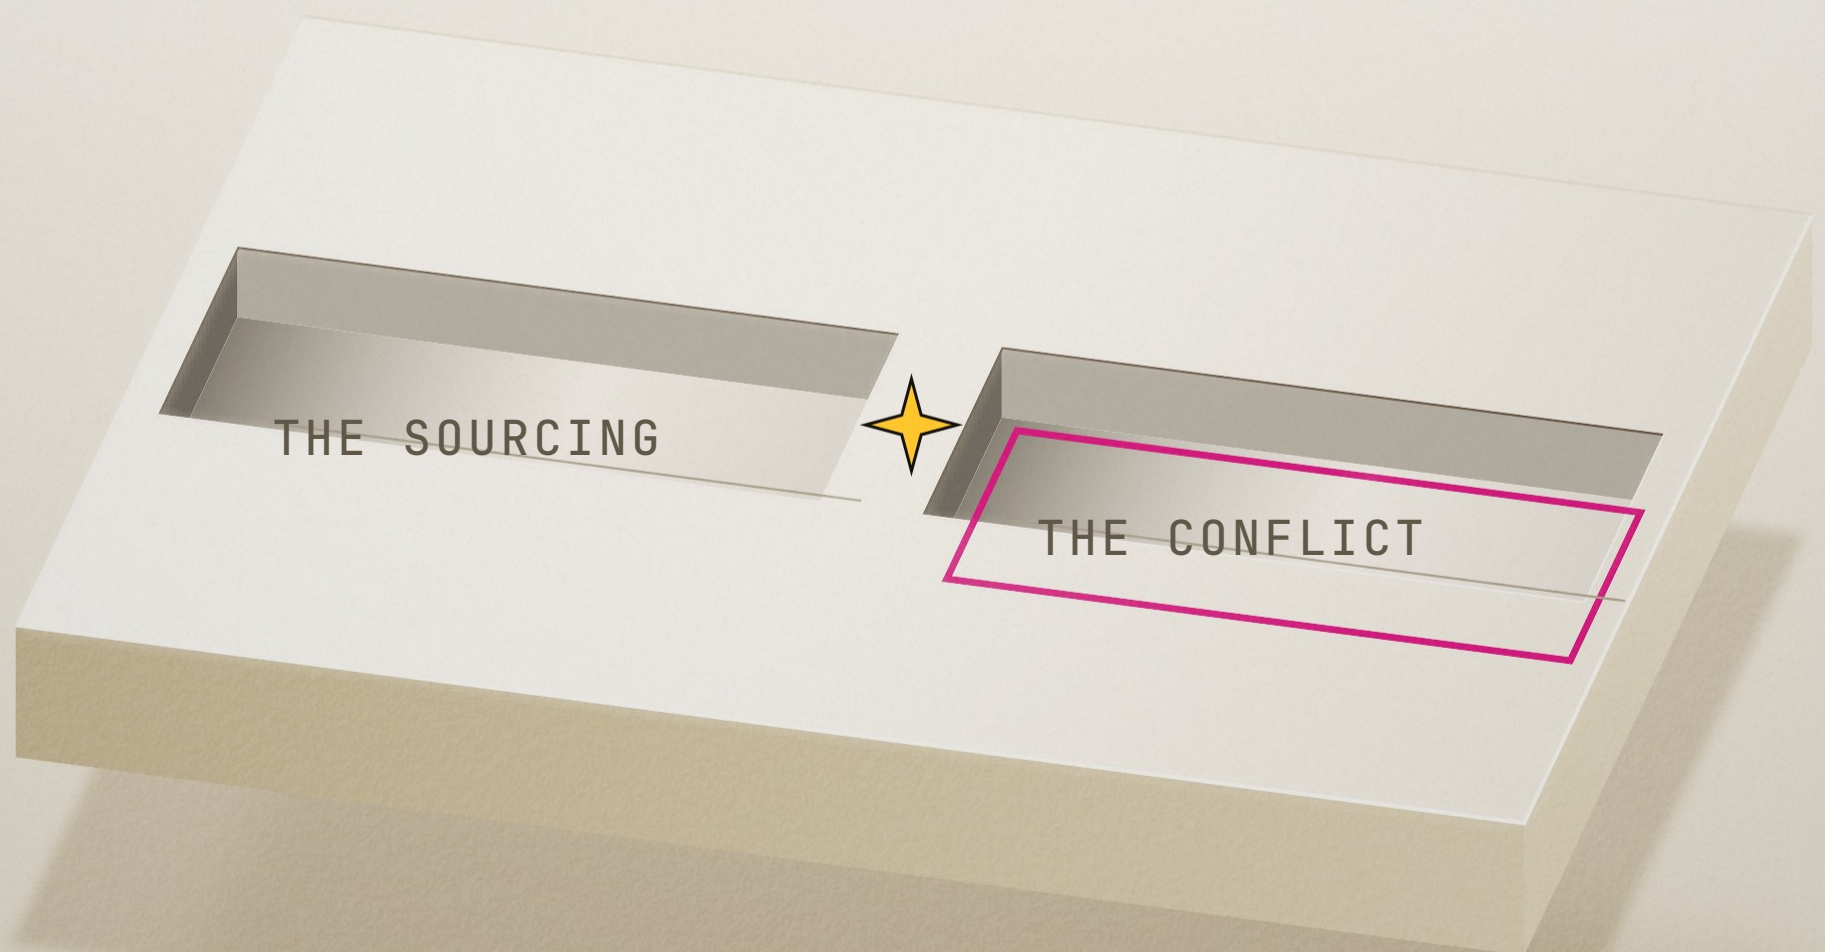

SOURCE, ALASKA PUBLIC MEDIA, JULY 24 2026

These six are one candidate's stated positions, not law. Ask any of the 17 candidates the same six questions before August 18.

Who is telling you this.

One article by one reporter, published July 23 2026 by the Anchorage Daily News and republished July 24 by Alaska Public Media. One reporting source, not two. The candidate AI positions come from a separate June questionnaire and are labelled background.

This deck was made with a Claude model built by Anthropic. Six Anthropic employees are the donors in this story. No source reports any donor's motive. This deck claims no causation, and no wrongdoing has been alleged in this reporting.

THIS DISCLOSURE ALSO RIDES IN THE FIRST COMMENT.

Save slide 08. Take it to a candidate before August 18.
