

THE MANDATORY AI RULE IS TWENTY MONTHS OLD

EFFECTIVE JANUARY 2025

WHO IT REACHES

IT REACHES EVERY USER OF UA COMPUTING RESOURCES

MAY

subject employees to
disciplinary action, up to and
including termination

subject students to
disciplinary action including
expulsion

SYSTEMS AND SERVICES MAY BE DISCONNECTED
FROM THE UA NETWORK

SUPPLEMENTS R02.07

"UA System regulations
are currently under
development."

LAST UPDATED MARCH 11TH, 2025

AI HUB LAST UPDATED JANUARY 9TH

One page was restamped this January. The
page that says no rules exist yet was not.

Three classes. Three different answers about where a tool may take them.

can be freely shared with the public

generally not available outside the UA community

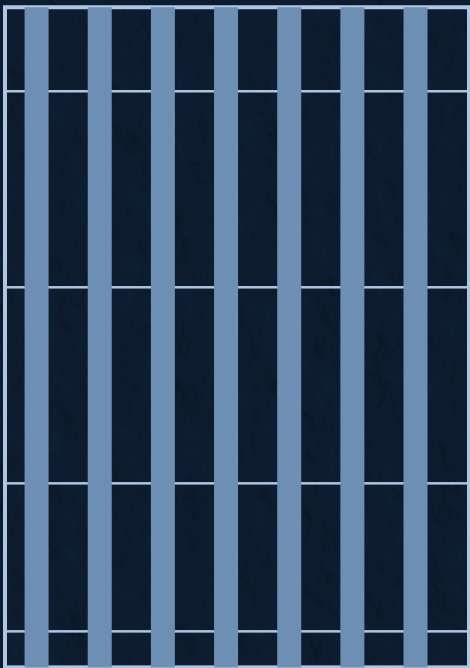

may be subject to disclosure laws

CONDITIONED, NOT BANNED

"must meet published requirements for data storage, computing environments, and model deployment"

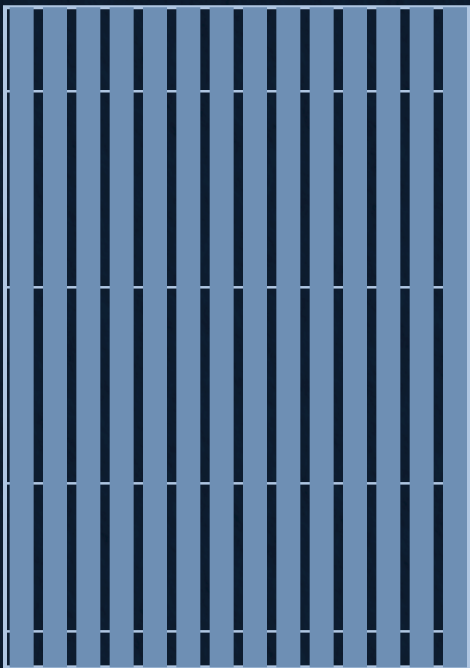

Ben Shier, the university's Chief Information Technology Officer, told the regents each tool is assessed against a data type, and users are told where that data can and can't go.

INTERNAL USE

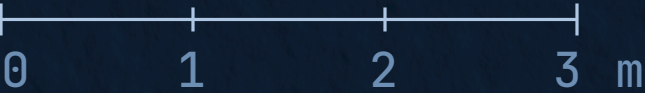

OPEN 0.28

RESTRICTED

OPEN 0.12

GATE, 3 CHUTES

UA GENERATIVE AI SECURITY STANDARD
EFFECTIVE JANUARY 2025
SUPPLEMENTS R02.07

**THE RULE GOVERNS
WHERE DATA GOES.
THE ARGUMENT
IS ABOUT LEARNING.**

JANUARY 2025 TO JANUARY 2027

WHERE THE LEARNING RULE LIVES

THREE CAMPUSES. THEN YOUR SYLLABUS.

UAA

Adoption and use are guided by individual university and department policies, currently under development.

UAS tells instructors to avoid relying on AI detection tools alone, because the tools have high error rates and on their own are not sufficient as evidence.

UAF

UAF puts work created by an artificial intelligence engine under the student code of conduct.

UAS also tells instructors the key is to clearly communicate their policies to students.

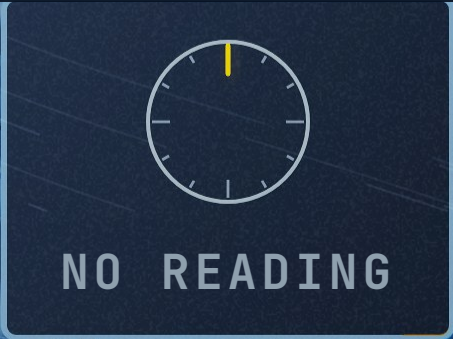

UAS

WHAT IS NOT MEASURED

KTOO reported that Shier said the university currently can't control and track every usage of AI.

About 85 percent of college students use generative AI in their coursework.

NATIONAL . 2025

WHAT IS PROPOSED

THE RULE IN FORCE IS NOT REVIEWED UNTIL JANUARY 2027

KTOO reported that the regents reviewed a draft AI policy that would require all three campuses to develop AI plans, and that leadership plans to submit a finalized draft for approval at the November regents meeting.

NO LISTENING SESSION DATES WERE
SCHEDULED AS OF SEPTEMBER 16TH

READ THE RULE
THAT ALREADY BINDS.
