

UPDATE

Cook Inlet's AI data center named AEA. AEA says they never spoke.

IN WRITING, ON THE FERC RECORD

Two names in the filing. Two letters back.

THE FILING, PER ORPC

"configured
to interface with"
ORPC turbines

ORPC, SEPTEMBER 14TH

"ORPC has
no involvement in
Deep Green's project"

20260914-5240

THE FILING'S DRAFT NOTICE

"Strategic Partner"
CIPLink (Alaska
Energy Authority)

AEA, OCTOBER 7TH

"AEA has had
no communications
or relationship with
DeepGreen."

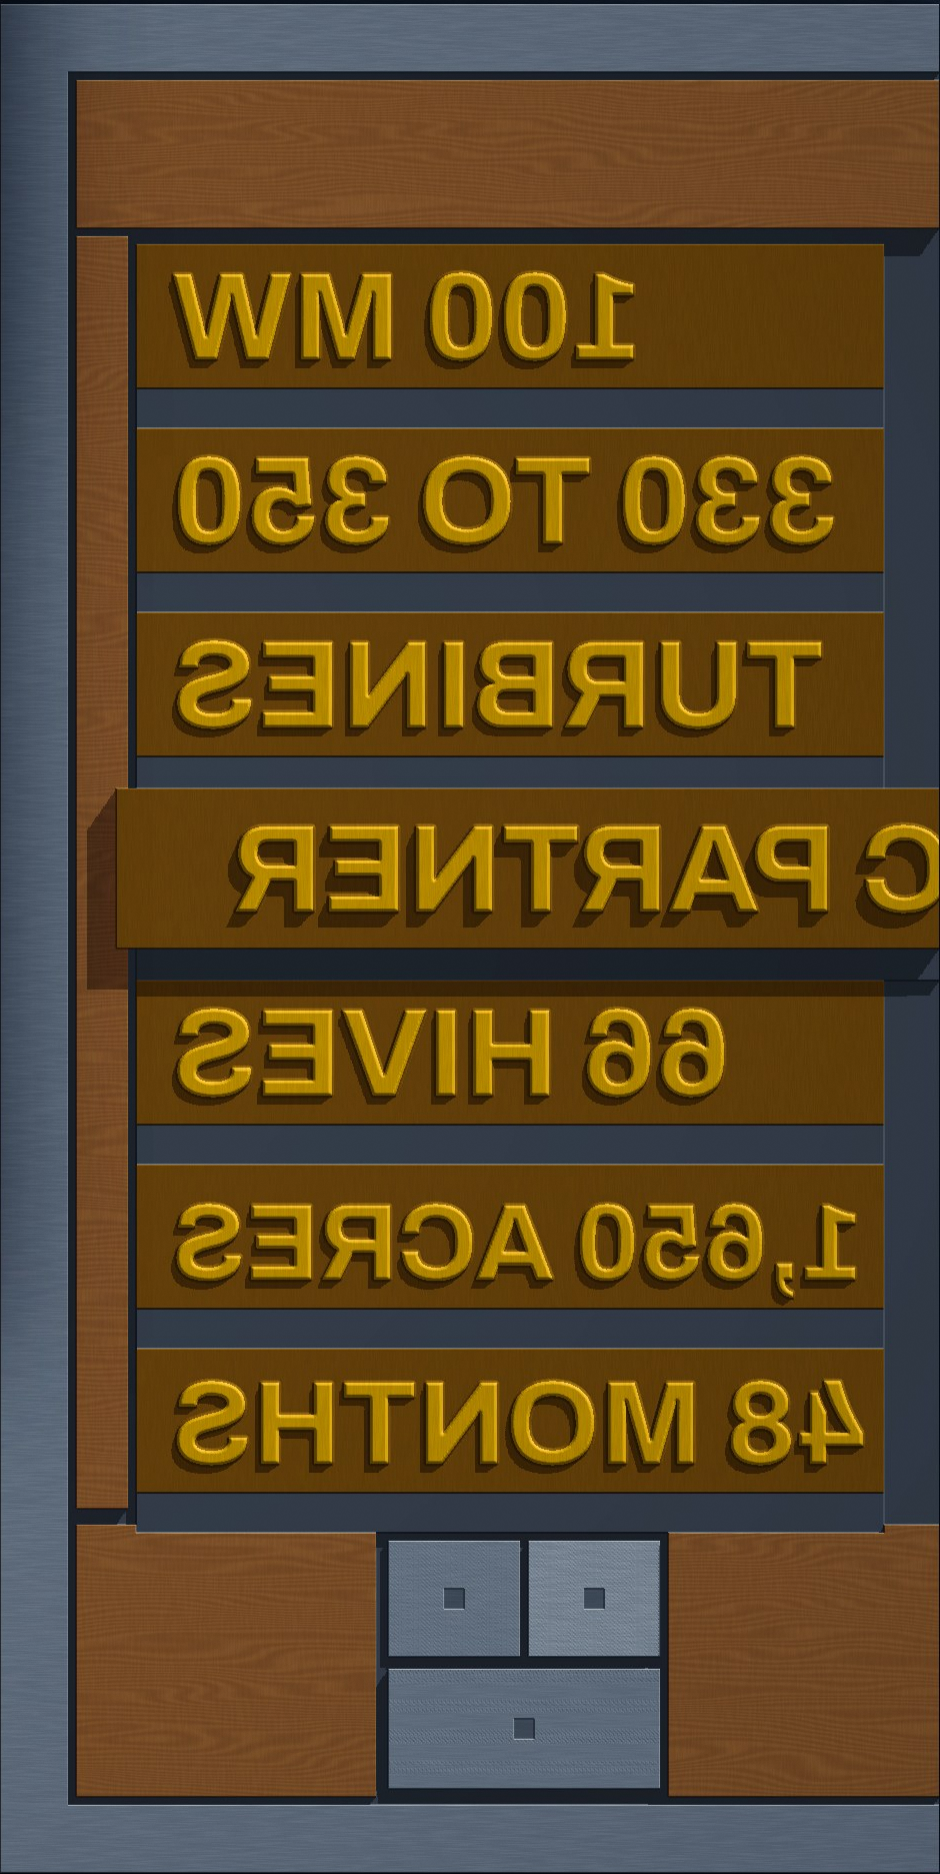

20261008-5007

WHAT THE APPLICATION ASKS

Priority to study, not permission to build.

A 48-month permit to study 100 MW from 330 to 350 tidal turbines feeding 66 hives of AI compute, on about 1,400 to 1,650 acres.

A preliminary permit gives priority to file for a license. It authorizes no construction.

SAID IN SEPTEMBER, FILED IN OCTOBER

AEA's chief said oppose. Its filing takes no position.

"We're going to file
to intervene and oppose it,
just so we have a position."

Curtis W. Thayer, AEA, to the Peninsula
Clarion, September 14th

AEA MOTION TO INTERVENE,
DATED OCTOBER 7TH

"AEA does not presently take
a position supporting or opposing
issuance of the requested
preliminary permit."

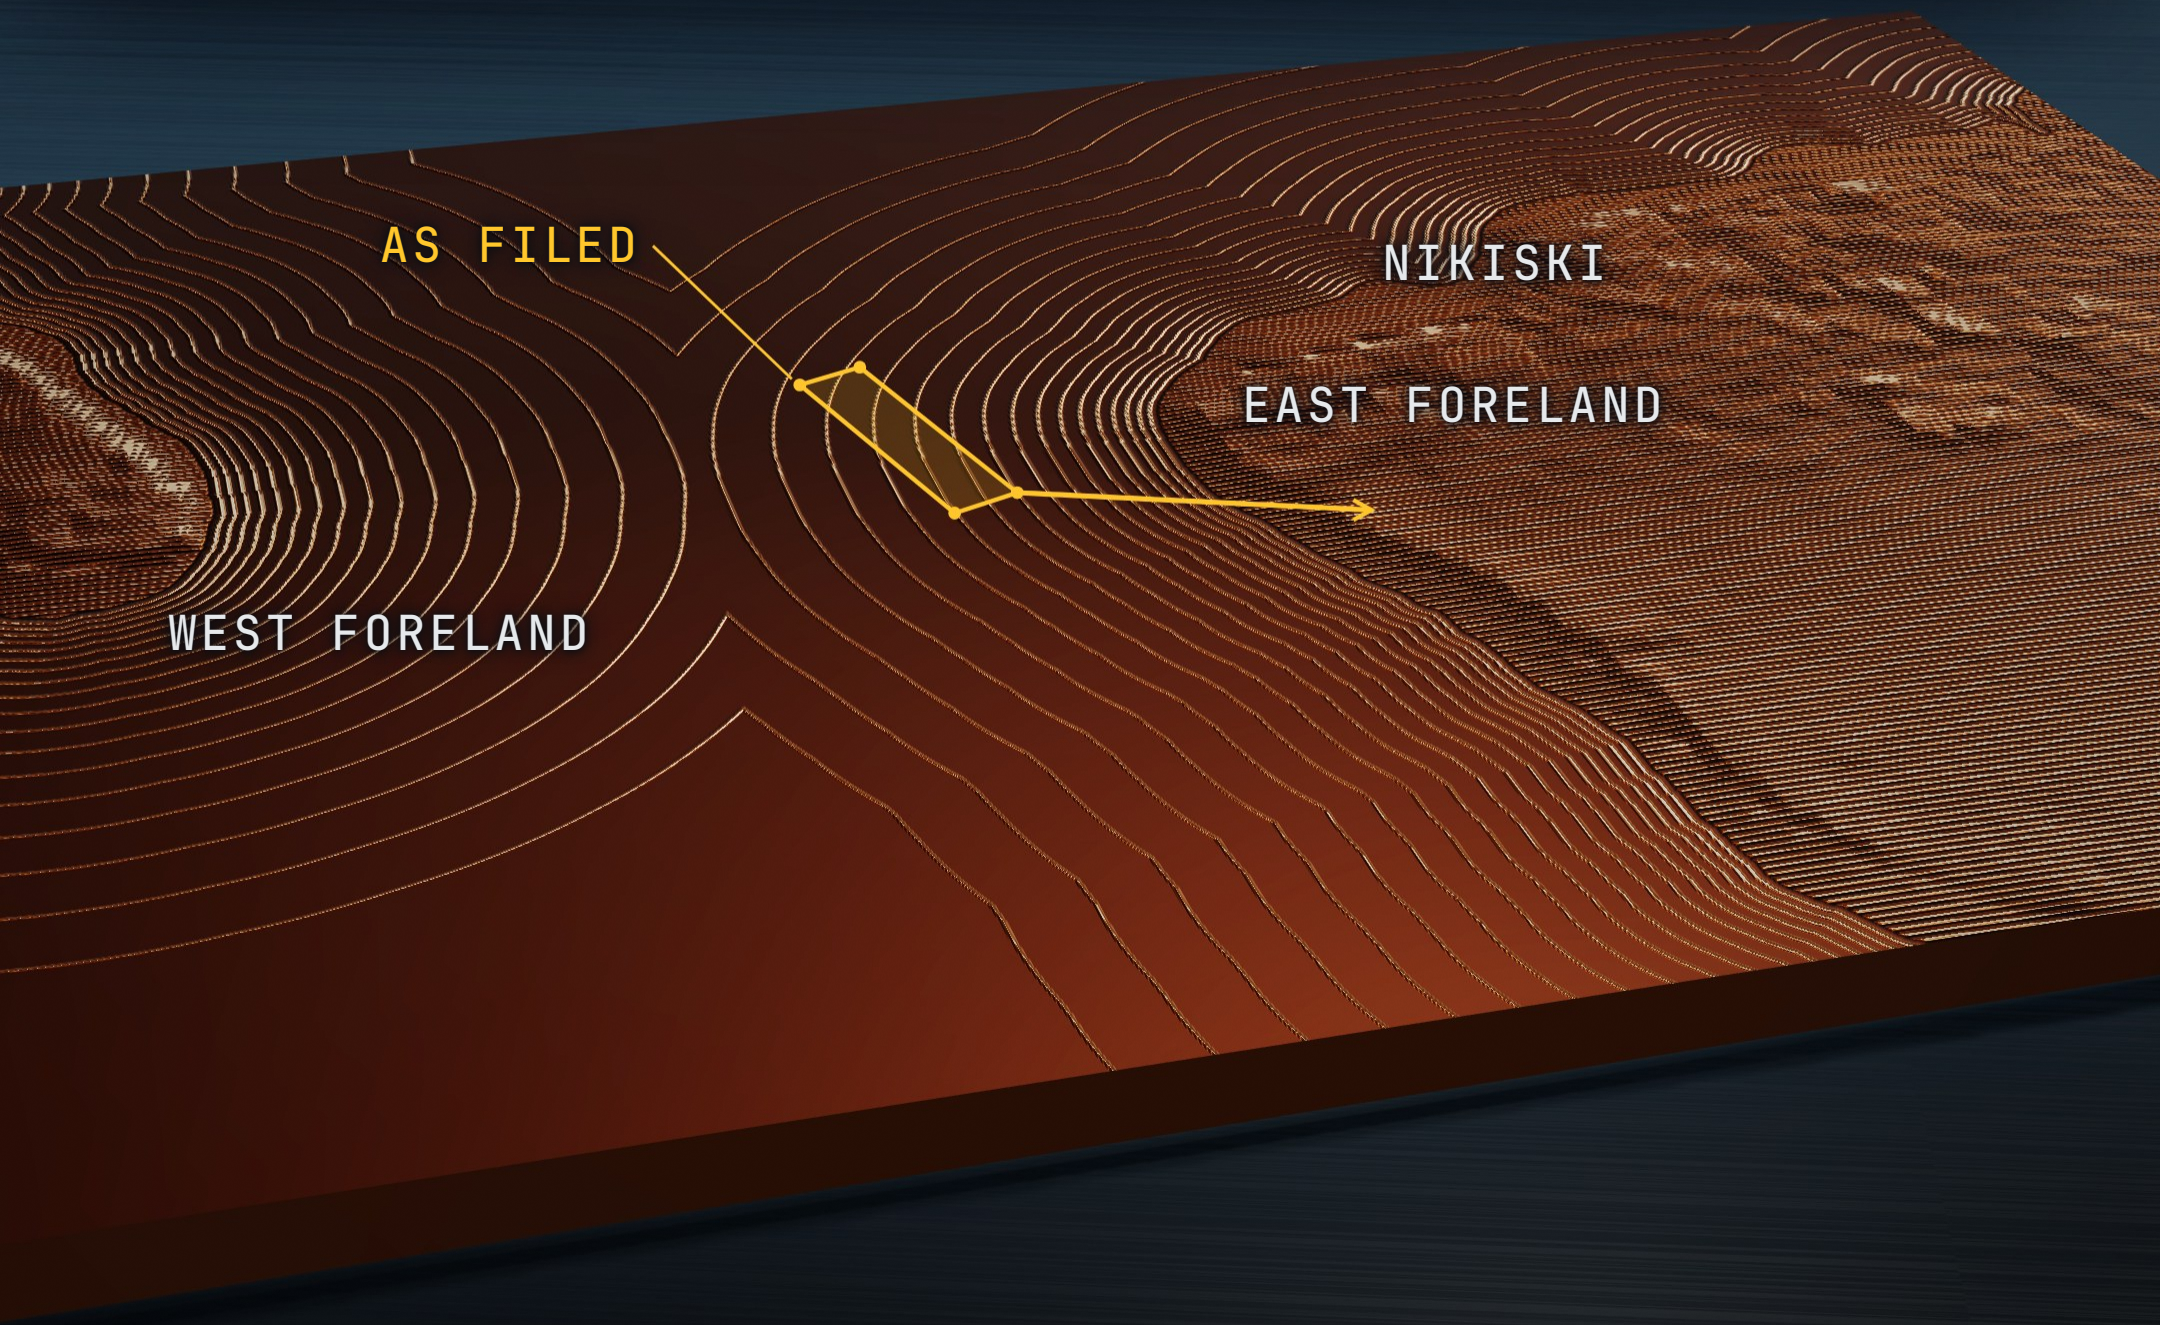

It reserves the right to change that position.

STRATEGIC PARTNERSHIP

DEEPGREEN'S ANSWER, SEPTEMBER 21ST

The footprint "will be substantially smaller."

The answer gives no new size. These are the four corners in Exhibit 3, about 1,400 to 1,650 acres off the East Foreland, with a 3.5-mile cable to Nikiski.

NAMED, NOT ON THE RECORD

Two more names. Nothing filed.

The application says it coordinates with CIRI and the Kenaitze Indian Tribe. Through October 22nd, neither has filed.

FERC DOCKET P-15423, AS LISTED OCTOBER 22ND

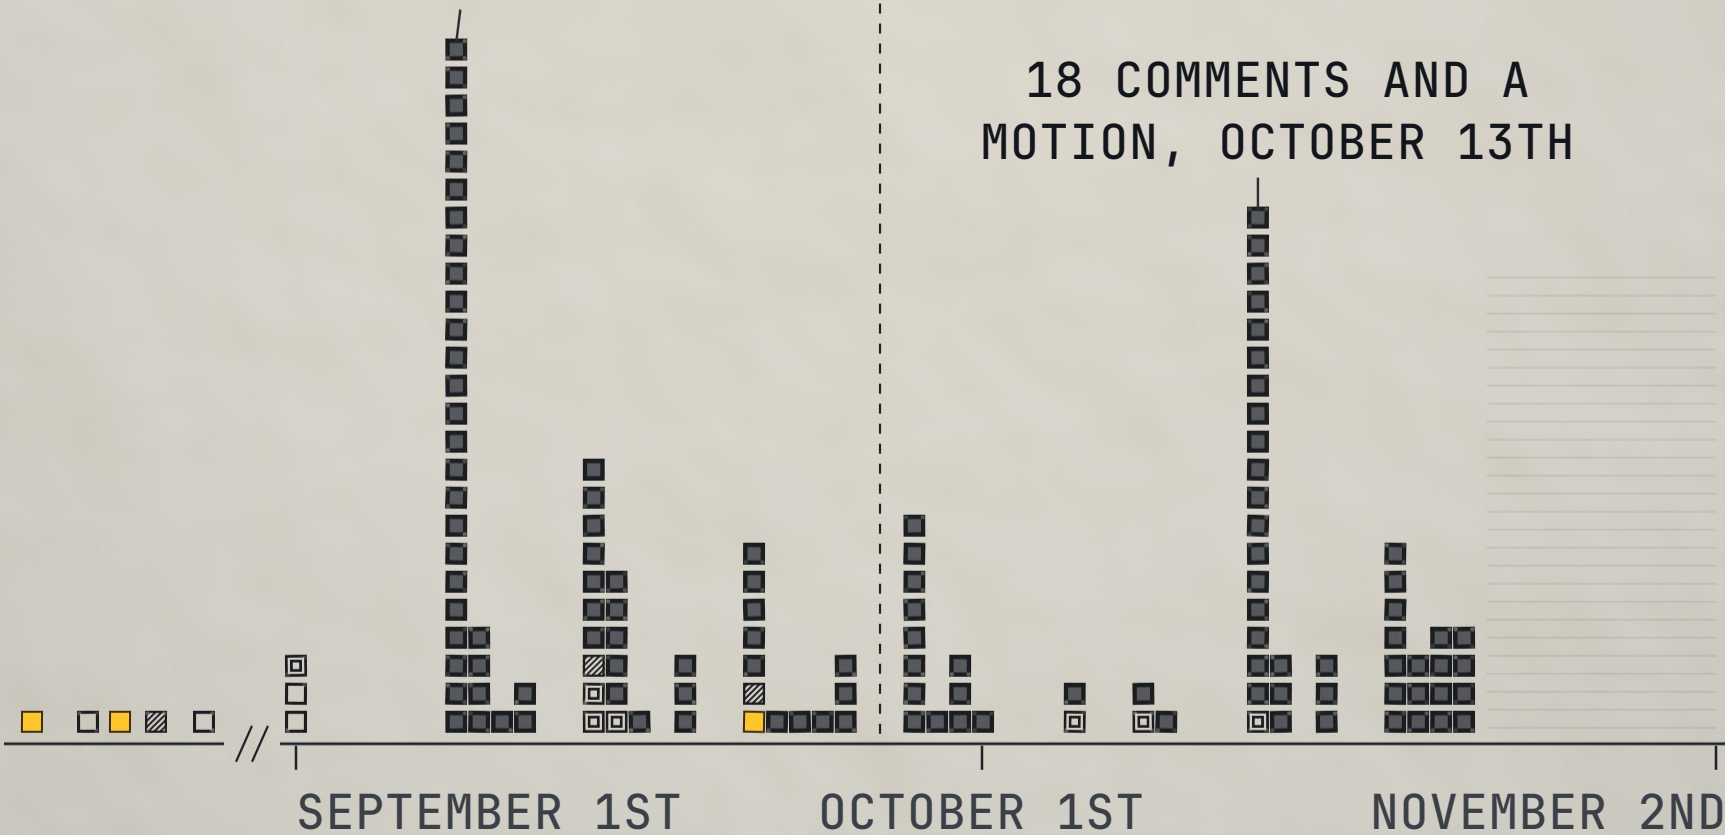

134 filings. 117 from the public.

NAMED IN THE APPLICATION, NO FILING

GCI called FERC staff on August 28th. It has not filed.

Should a filing name a partner without the partner's signature?

Comments, motions and competing applications close 5 p.m.
Eastern, November 2nd.
