ALASKA RURAL HEALTH TRANSFORMATION · YEAR 1

254 rural health awards. Seven include AI.

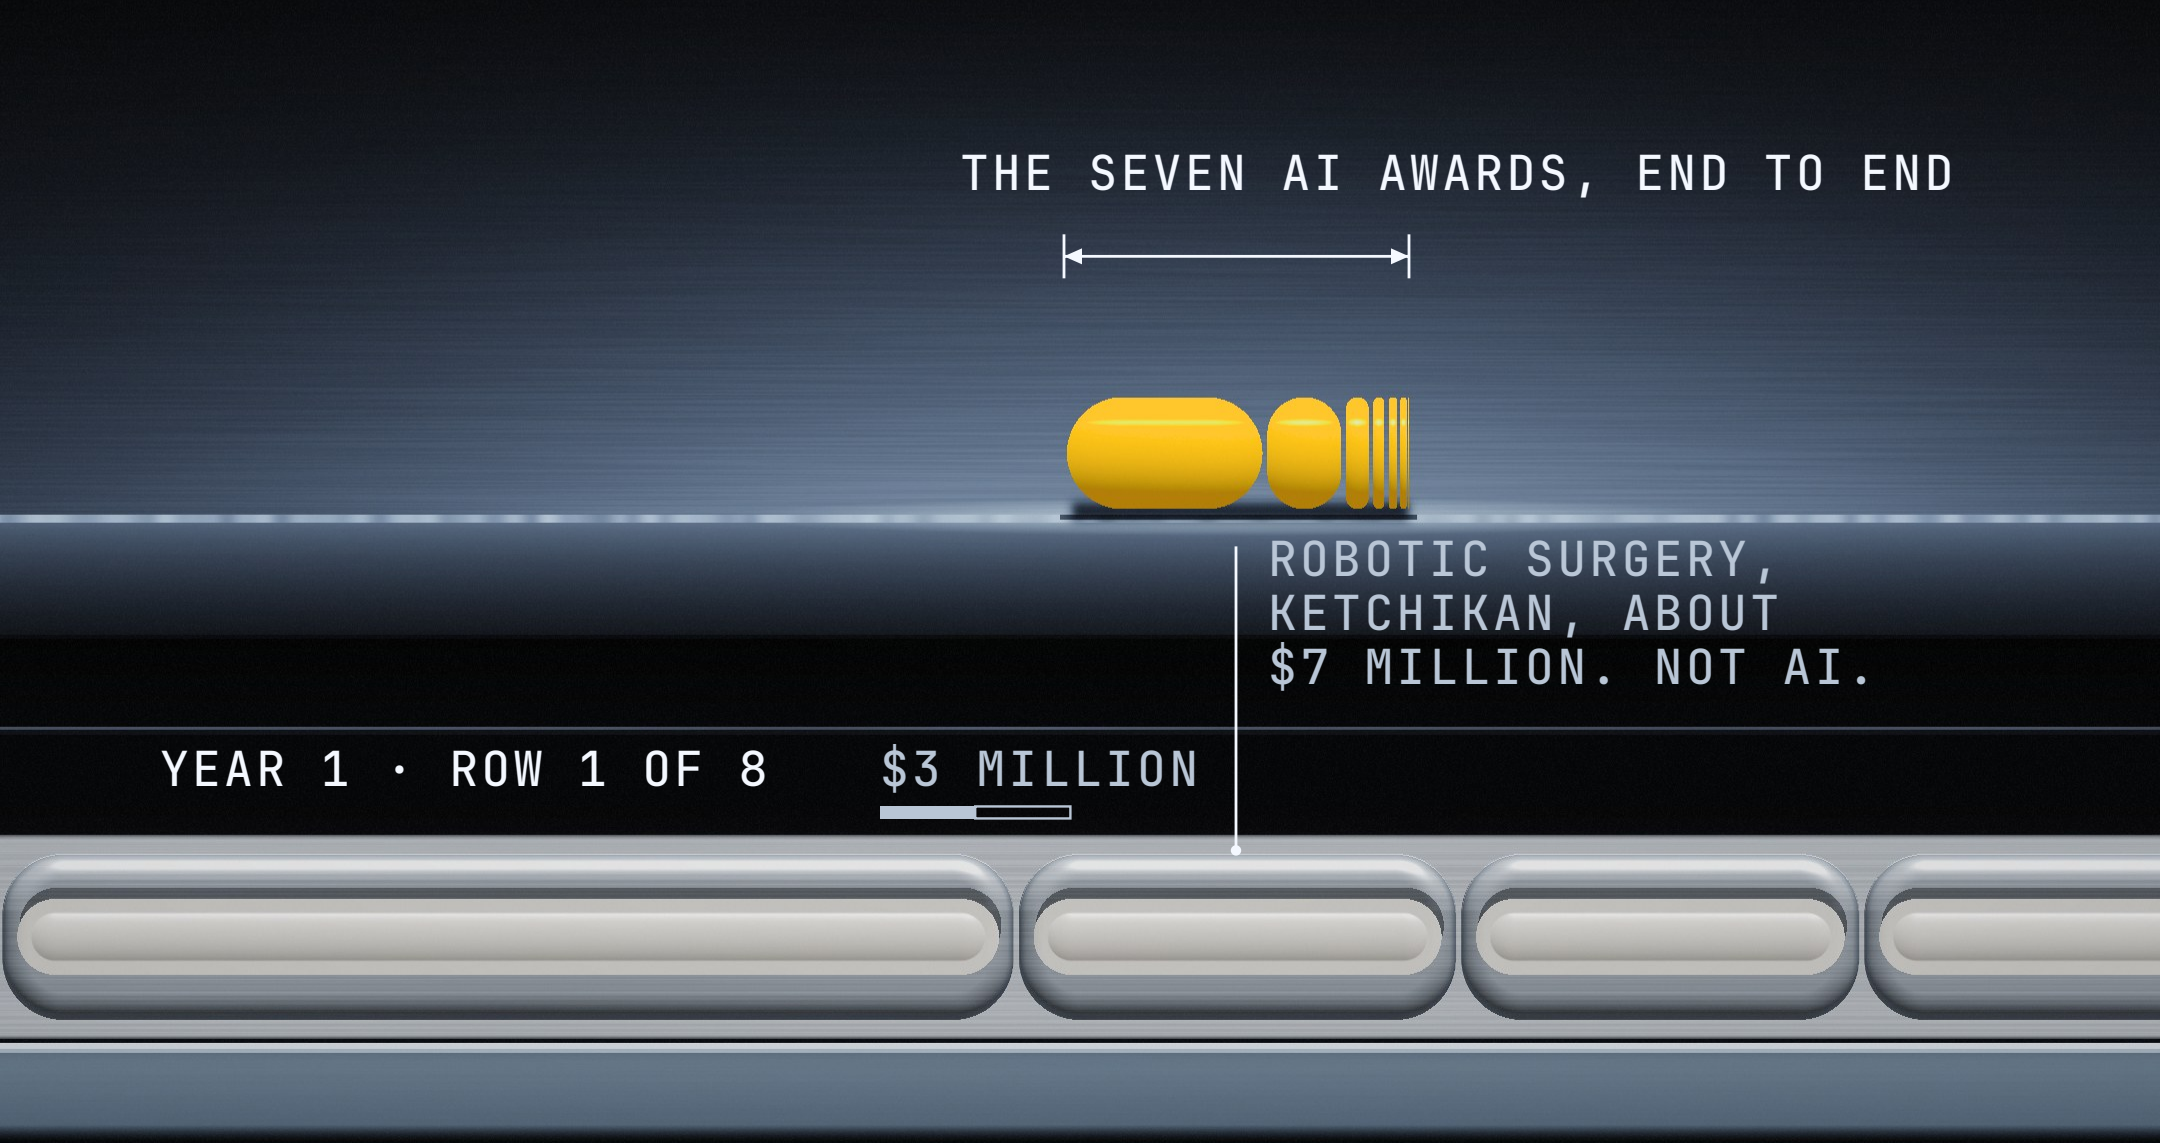

ONE POCKET PER AWARD · LARGEST FIRST

YEAR 2 AWARDED NOVEMBER 9TH ·
ALASKA SECOND ONLY TO TEXAS

At least $5.4 million of just under $249 million. About two cents a dollar.

Alaska's Year 2 award is $272,653,149. Below, every Year 1 award at one scale, largest first, one pocket each. Gold is AI.

THE SEVEN, BY WHAT THE AI DOES

Two read the body. Three write the chart.

The stroke network reads scans and Mat-Su Regional's headband reads brain waves. Maniilaq, Ptarmigan and Kodiak use AI to write clinical notes. MapHabit maps daily routines and the Independent Living Council sizes up assistive tech.

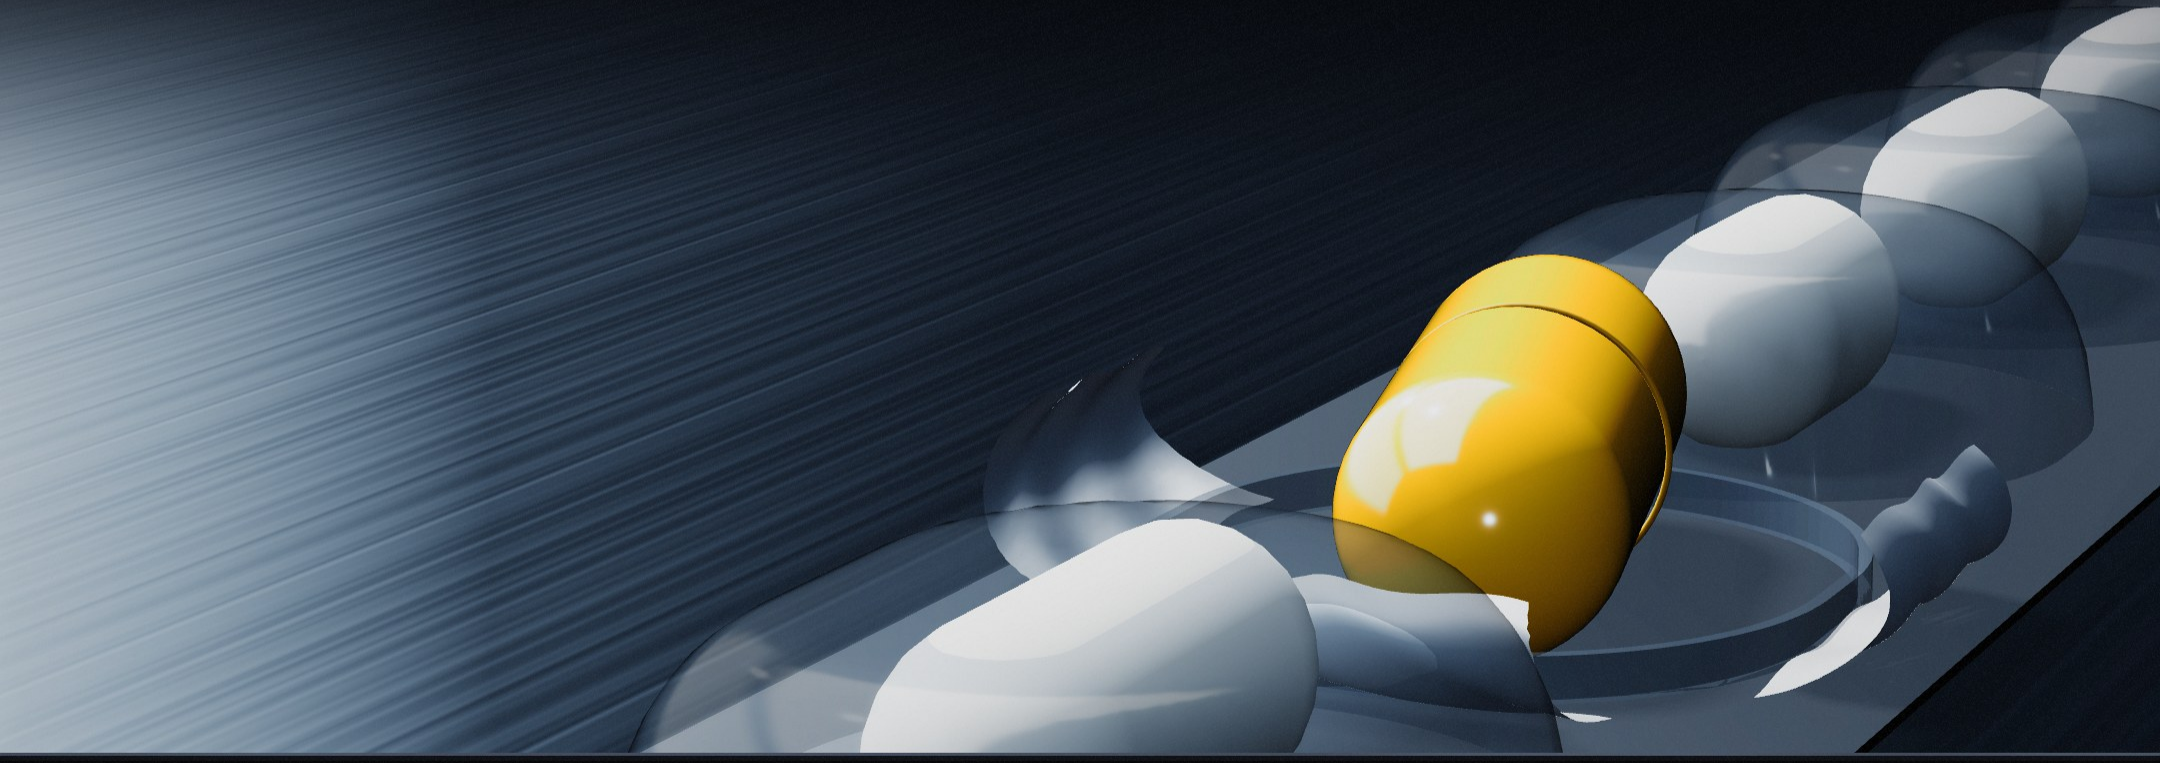

YEAR 1 · ROW 2 OF 8 $3 MILLION

THE LARGEST · ALASKA STROKE COALITION

$3,156,626 to read stroke scans at 21 hospitals.

Two cloud platforms run on the hospitals' existing image systems, with no new imaging hardware. They also flag bleeds, lung clots, and aortic and spinal injury.

Each of the seven names what its AI should do.

ONE POCKET, OPENED · PLAN VIEW

YEAR 1 · ROW 4 OF 8 $3 MILLION

THE SEVEN AI AWARDS · YEAR 1

What each says its AI should do.

Alaska Stroke Coalition reads stroke scans, 21 hospitals	$3,156,626	
MapHabit AI visual maps for daily routines	$1,241,086	
Maniilaq Association behavioral health notes	$430,000	
Mat-Su Regional EEG headband, may spare a transfer	$250,000	
Ptarmigan Pediatrics ambient charting, plus a portal	$190,556	
Independent Living Council assistive tech assessment	$141,703	
Kodiak Community Health Center AI clinical notes	$25,493	

TOTAL ABOUT $5.4 MILLION · PRELIMINARY, OCTOBER 9TH

YEAR 1 · ROW 5 OF 8 $3 MILLION

WHERE THE AI MONEY IS FILED

Most of the AI money has no address.

About $4.5 million is filed "Statewide", including the stroke network, whose award names none of its 21 hospitals. The rest lands in four areas.

YEAR 1 · ROW 6 OF 8 $3 MILLION

YEAR 2 · ALASKA $272,653,149

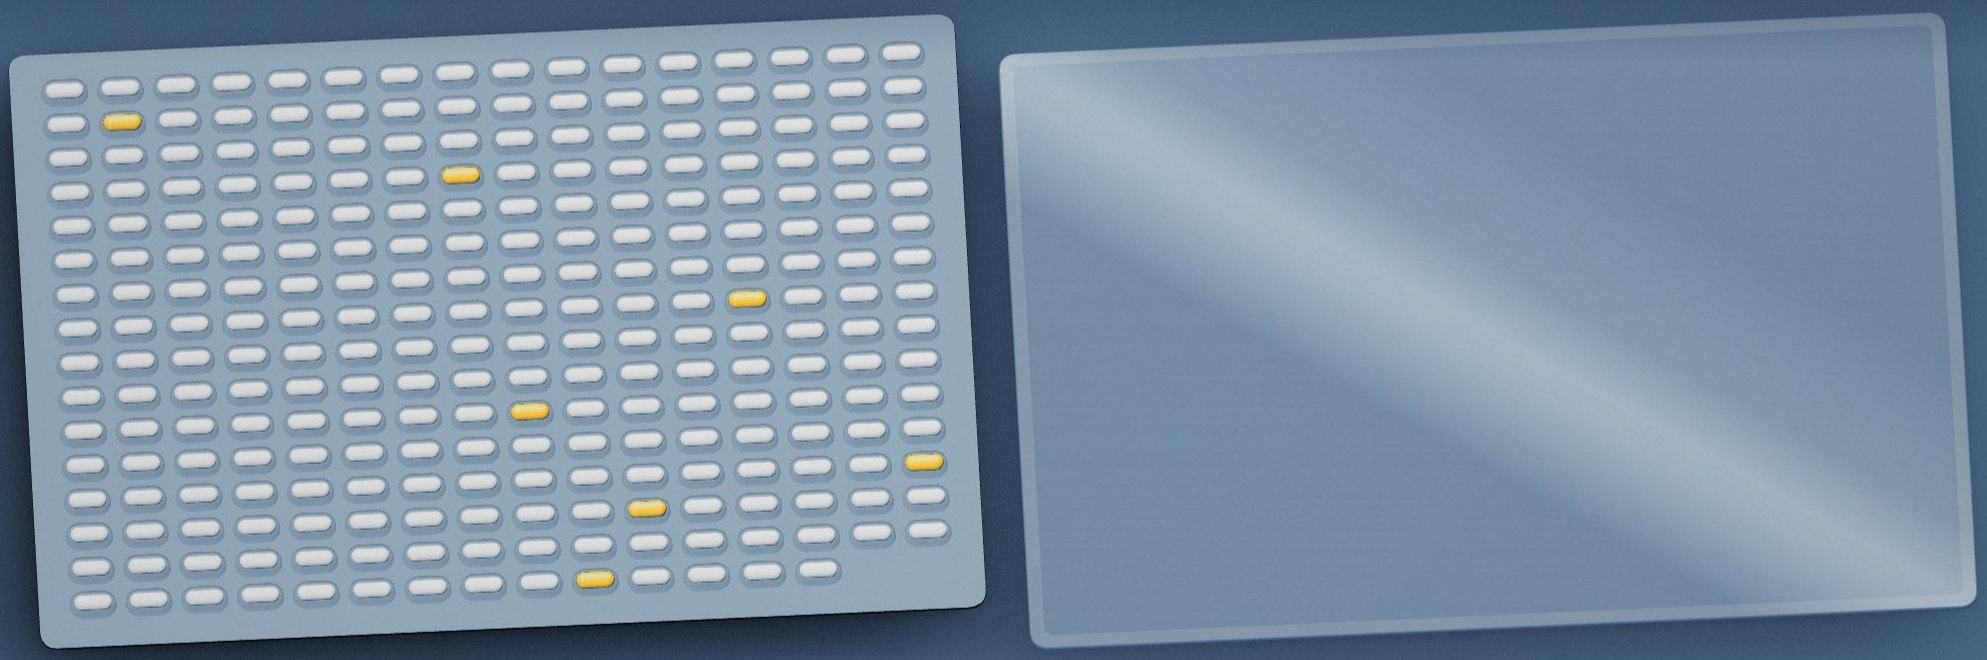

Year 2 money weighs progress, including ways to measure results.

The state plans a public dashboard of every award by year end. Put the seven AI aims on it.

Which of the seven should the dashboard check first?

YEAR 1 · 254 AWARDS

YEAR 2
NOT YET AWARDED TO PROJECTS

ADMINISTRATION, EVALUATION, OVERSIGHT
ABOUT $23.2 MILLION
